Central Daylight Time (CDT)		Tuesday, June 1	Wednesday, June 2	Thursday, June 3	Friday, June 4	Saturday, June 5
8:00	8:00		Coffee Break	Coffee Break	Coffee Break	Coffee Break
8:30	8:30		Bench-to-Bedside Keynote Tracey Shors	Synaptic plasticity underlying obesity-linked motivational changes	The role of neuronal ensembles in learned behaviors	Social effects of neuropeptide Oxytocin: Two sides of a coin
9:00	9:00					The role of the Environment on the Penetrance of Neuro Developmental Disorders
9:30	9:30		Break			The cognitive basis of drug relapse: neural circuitry underlying extinction and reinstatement of reward-seeking behavior
10:00	10:00		Travel Award Blitz			Neuroscience of Maternal Mental Illness
10:30	10:30			Break	Break	Ketamine: The good, the bad, and the potential ugly.
11:00	11:00			Keynote Gina Quirarte		Translation of apathy-like behaviour, from humans to animals
11:30	11:30				Glial control of neuronal plasticity and behavior	
12:00	12:00		Lunch Break - E&D Workshop	Meet the Committees Networking	A new perspective on the role of the insular cortex in cognition and behavior based on pre-clinical research	The thalamus as a regulator of motivated behaviors
12:30	12:30					Clinical and Experimental assessment of behaviors associated with dementia: Challenges and solutions
13:00	1:00				Lunch Break Meet the Professionals	Integrating neurotechnology with behaviour and open science through touchscreens
13:30	1:30		Hormone-Mediated Neuroplasticity Across Behaviors	Origins of sex differences in behavior: The unusual suspects		Meet the Committees Networking
14:00	2:00		Developmental origin of neurocognitive behavioral disorders in adolescence and adults		How are memories organized in the brain? Insights from studies of higher-order conditioning.	
14:30	2:30		Contributions of the cingulate-retrosplenial cortical axis to learning and memory consolidation		Presidential Keynote Marina Picciotto	Group behavior analysis in animal models of human conditions
15:00	3:00					The rodent medial prefrontal cortex and associated circuits in behavior under variable demands
15:30	3:30		Break	Break	Break	Translation across the lifespan: Genetic and Environmental risk models for complex disease
16:00	4:00	Council Meeting	Neural Systems Regulating Responses to Stress, Threat, and Safety	Reward seeking vs addiction: Exploring the phenotypes of substance use disorder using rodent models.	Award Talks	
16:30	4:30		Neuro-immune crosstalk and CB2Rs in marijuana-cannabinoid medicine	Using Stress-Enhanced Fear Learning to Reveal Associative and Nonassociative Consequences of Traumatic Stress		Break
17:00	5:00		Consequences of cancer and cancer treatment on brain and behaviour	Electronic Vapor Self-Administration Studies: A New Era for Addiction Research	Poster Session 3	Keynote Kay Tye
17:30	5:30					
18:00	6:00		Black in Neuro	Women In Learning	Animal Behavior Workshop	Break
18:30	6:30					IBNS Business Meeting
19:00	7:00		Meet the Committees Networking	Poster Session 1	Memory and plasticity in development and maturation - periods of vulnerability and opportunity	Awards Banquet
19:30	7:30				Stressed out: Tracking the impact of stress across the lifespan	
20:00	8:00	Welcome Reception		Poster Session 2	New directions in modelling dysregulated reward seeking	
20:30	8:30					
21:00	9:00					
21:30	9:30					
22:00	10:00					
22:30	10:30					
23:00	11:00					
23:30	11:30					

Site Time CDT	PDT	MDT	EDT	GMT	Germ	Greece	Iran	Japan	Aus (EST)
